I am a passionate student and aspiring frontend web developer, dedicated to mastering the MERN stack and modern web technologies. My expertise includes React, JavaScript, MongoDB, and Firebase, with hands-on experience building interactive and responsive web applications. I value innovation, efficiency, and collaborative work environments. I am eager to join a dynamic startup or company where I can contribute my frontend development skills, grow professionally, and work remotely with talented teams.Let's connect and build something amazing together!
